DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 11-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The added material that is not described in the specification as originally filed is as follows: as recited in claims 11 and 17, the negative limitation “untextured” does not have support in the application as originally filed.

Response to Arguments

Applicant's arguments filed 1/18/05 have been fully considered but they are not persuasive. Applicant argues that the negative limitation “untextured” finds support in the specification as originally filed and therefor is not new matter. The examiner disagrees. As set forth in the response to arguments found in the office action of 7/16/04, it is the examiner opinion that excluding any type of texturing via the term “untextured” is new matter since such was never presented in the application as originally filed. Applicant has not recited any section of the original specification that includes the negative limitation “untextured” either expressly or inherently.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
